9. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax

under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- (i) the Issue Price is EUR 100 per Certificate and the Calculation Amount is EUR 100;
- (ii) in respect of each Underlying Asset, the Autocall Level is 100 per cent. (100%) of the Asset Initial Price, the Barrier Level is 60 per cent. (60%) of the Asset Initial Price and the Coupon Barrier Level is 60 per cent. (60%) of the Asset Initial Price; and
- (iii) the Coupon Value Multiplicand is 0.0266 and the Redemption Percentage is 100 per cent. (100%).

COUPON AMOUNT AND AUTOMATIC EARLY EXERCISE

Example 1 – Automatic Early Exercise and Coupon Amount: *The Reference Price of each Underlying Asset for the Valuation Date scheduled to fall on May 22, 2025 is greater than or equal to its respective Autocall Level. The Coupon Value Multiplier corresponding to such Coupon Observation Date is 4.*

In this Example, the Certificates will be automatically exercised on such Valuation Date, and the Automatic Early Exercise Amount payable per Certificate on the Automatic Early Exercise Date immediately following such Valuation Date will be an amount in the Settlement Currency equal to the Autocall Event Amount, i.e., EUR 100. Additionally, a Coupon Amount per Certificate will be payable on the Coupon Payment Date falling on such Automatic Early Exercise Date, and such Coupon Amount will be an amount in the Settlement Currency equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.1064, *minus* (ii) the *aggregate* of the Coupon Amounts (if any) per Certificate previously paid on the Coupon Payment Dates preceding such Valuation Date.

Example 2 – no Automatic Early Exercise but Coupon Amount: *The Reference Price of one Underlying Asset for the Valuation Date scheduled to fall on May 22, 2025 is less than its Autocall Level, and the Reference Price of each Underlying Asset for such Valuation Date is greater than or equal to its respective Coupon Barrier Level. The Coupon Value Multiplier corresponding to such Coupon Observation Date is 4.*

In this Example, the Certificates will not be automatically exercised on such Valuation Date. A Coupon Amount per Certificate will be payable on the Coupon Payment Date immediately following such Valuation Date, and such Coupon Amount will be an amount in the Settlement Currency equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.1064, *minus* (ii) the *aggregate* of the Coupon Amounts (if any) per Certificate previously paid on the Coupon Payment Dates preceding such Valuation Date.

Example 3 – no Automatic Early Exercise and no Coupon Amount: *The Reference Price of one Underlying Asset for the Valuation Date scheduled to fall on May 22, 2025 is less than its Coupon Barrier Level, and the Reference Price of each other Underlying Asset for such Valuation Date is greater than or equal to its respective Autocall Level.*

In this Example, the Certificates will not be automatically exercised on such Valuation Date and no Coupon Amount will be payable on the Coupon Payment Date immediately following such Valuation Date.

SETTLEMENT AMOUNT

Example 4 – neutral scenario and Coupon Amount: *The Certificates have not been exercised on an Applicable Date, and the Final Closing Price of each Underlying Asset is 60 per cent. (60%) or more of its respective Asset Initial Price. The Coupon Value Multiplier corresponding to such Coupon Observation Date is 12.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate on the Maturity Date will be an amount in the Settlement Currency equal to 100 per cent. (100%) of the Calculation Amount, i.e., EUR 100. Additionally, a Coupon Amount per Certificate will be payable on the Coupon Payment Date falling on the Maturity Date, and such Coupon Amount will be an amount in the Settlement Currency equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.3192, *minus* (ii) the *aggregate* of the Coupon Amounts (if any) per Certificate previously paid on the Coupon Payment Dates preceding the Final Reference Date.

Example 5 – negative scenario and no Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is 59 per cent. (59%) of its Asset Initial Price and the Final Closing Price of each other Underlying Asset is 60 per cent. (60%) or more of its respective Asset Initial Price.*

In this Example, the Certificates will be automatically exercised on the Final Reference Date and the Settlement Amount payable per Certificate on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the *quotient* of (a) the Final Reference Value, *divided* by (b) the Initial Reference Value, i.e., EUR 59. No Coupon Amount will be payable on the Coupon Payment Date falling on the Maturity Date. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount invested in the Certificates (apart from any Coupon Amounts received prior to the Maturity Date).**

Example 6 – negative scenario and no Coupon Amount: *The Certificates have not been exercised on an Applicable Date, the Final Closing Price of one Underlying Asset is zero per cent. What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer. The Securities are the Issuer's unsecured obligations. Investors are dependent on the Issuer's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness. The Securities are not bank deposits, and they are not insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's ability to fulfil its obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- GSI is a wholly-owned subsidiary of the Goldman Sachs group and a key banking subsidiary of the Goldman Sachs group. As a result, it is subject to a variety of risks that are substantial and inherent in its businesses including risks relating to economic and market conditions, regulation, Brexit, market volatility, liquidity, credit markets, concentration of risk, credit quality, composition of client base, derivative transactions, operational infrastructure, cyber security, risk management, business initiatives, operating in multiple jurisdictions, conflicts of interest, competition, changes in underliers, personnel, negative publicity, legal liability, catastrophic events and climate change.
- GSI is subject to the Bank Recovery and Resolution Directive, which is intended to enable a range of actions to be taken by a resolution authority in relation to credit institutions and investment firms considered by the resolution authority to be at risk of failing and where such action is necessary in the public interest. The resolution powers available to the resolution authority include powers to (i) write down the amount owing, including to zero, or convert the Securities into other securities, including ordinary shares of the relevant institution (or a subsidiary) –

¹ "Fees and commissions" are included within "non-interest income" and therefore are not included as a single line item.

² "Subordinated loans" are included within "total unsecured borrowings" and therefore are not included as a single line item.

the so-called "bail-in" tool; (ii) transfer all or part of the business of the relevant institution to a "bridge bank"; (iii) transfer impaired or problem assets to an asset management vehicle; and (iv) sell the relevant institution to a commercial purchaser. In addition, the resolution authority is empowered to modify contractual arrangements, suspend enforcement or termination rights that might otherwise be triggered. The resolution regime is designed to be triggered prior to insolvency, and holders of Securities may not be able to anticipate the exercise of any resolution power by the resolution authority. Further, holders of Securities would have very limited rights to challenge the exercise of powers by the resolution authority, even where such powers have resulted in the write down of the Securities or conversion of the Securities to equity.

Governing law: The Securities are governed by English law.

Status of the Securities:

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

The taking of any action by a resolution authority under the Bank Recovery and Resolution Directive, in relation to the Issuer could materially affect the value of, or any repayments linked to, the Securities, and/or risk a conversion into equity of the Securities.

Description of restrictions on free transferability of the Securities: The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations. Subject to the above, the Securities will be freely transferable.

Where will the Securities be traded?

Application will be made by the Issuer (or on its behalf) for the Securities to be listed and admitted to trading on the EuroTLX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A. (the "**EuroTLX Market**") with effect from at the earliest the Issue Date.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted.

- Depending on the performance of the Underlying Assets, you may lose some or all of your investment.
- The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities and might be zero.

Risks relating to certain features of the Securities:

- The terms and conditions of your Securities provide that the Securities are subject to a cap, so your ability to participate in any change in the value of the Underlying Assets over the term of the Securities will be limited, no matter how much the price of the Underlying Assets may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Assets directly.
- The terms and conditions of your Securities provide that the return on the Securities depends on the "worst-of" performance of the basket of Underlying Assets, you will be exposed to the performance of each Underlying Asset and, in particular, to the Underlying Asset which has the worst performance. This means that, irrespective of how the other Underlying Assets perform, if any Underlying Asset fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any settlement amount, you may receive no interest payments and/or could lose some or all of your initial investment.

Risks relating to the Underlying Assets:

- *The value of and return on your Securities depends on the performance of the Underlying Assets*
The return on your Securities depends on the performance of the Underlying Assets. The price of the Underlying Assets may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the price, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of an Underlying Asset is not indicative of future performance*
You should not regard any information about the past performance of the Underlying Assets as indicative of the range of, or trends in, fluctuations in the Underlying Assets that may occur in the future. Underlying Assets may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as business risks faced by the issuers thereof. Any one or a combination of such factors could adversely affect the performance of the Underlying Assets which, in turn, would have a negative effect on the value of and return on your Securities.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- Il pagamento di qualsiasi importo dovuto sugli Strumenti Finanziari è soggetto al rischio di credito dell'Emittente. Gli Strumenti Finanziari sono obbligazioni non garantite dell'Emittente. Gli investitori dipendono dalla capacità dell'Emittente di versare tutti gli importi dovuti sugli Strumenti Finanziari, e pertanto gli investitori sono soggetti al rischio di credito dell'Emittente e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente. Gli Strumenti Finanziari non sono depositi bancari, e non sono assicurati o garantiti da alcuno schema di protezione di compensazione o deposito. Il valore e il rendimento sugli Strumenti Finanziari saranno soggetti al rischio di credito dell'Emittente e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente.
- GSG e le sue controllate consolidate ("**Goldman Sachs**") costituiscono un gruppo leader mondiale nell'*investment banking*, nei titoli e nella gestione degli investimenti e fanno fronte ad una varietà di rischi significativi che potrebbero pregiudicare la capacità dell'Emittente di adempiere ai propri obblighi relativi agli Strumenti Finanziari, inclusi i rischi di mercato, rischi di liquidità, rischi di credito, rischi operativi, rischi legali e regolamentari, rischi di concorrenza e sviluppi di mercato e rischi generali del contesto aziendale.
- GSI è una società controllata interamente detenuta dal gruppo Goldman Sachs e una società bancaria controllata principale del gruppo Goldman Sachs. Di conseguenza, è soggetta ad una varietà di rischi che sono sostanziali e inerenti alle proprie attività, compresi i rischi legati alle condizioni economiche e di mercato, di regolamentazione, alla *Brexit*, alla volatilità del mercato, liquidità, mercati di credito, concentrazione del rischio, qualità del credito, composizione della base di clientela, operazioni di strumenti derivati, infrastrutture operative, sicurezza informatica, la gestione del rischio, iniziative imprenditoriali, operatività in multiple giurisdizioni, conflitti di interessi, concorrenza, cambiamenti nelle attività sottostanti, personale, pubblicità negative, responsabilità legale, eventi catastrofici e cambiamento climatico.
- GSI è soggetta alla *Bank Recovery and Resolution Directive* (Direttiva sul Risanamento e la Risoluzione delle Crisi Bancarie), che ha lo scopo di consentire una serie di azioni da parte di un'autorità di risoluzione delle crisi in relazione agli enti creditizi e alle imprese di investimento che l'autorità di risoluzione delle crisi considera a rischio di fallimento e quando tale azione è necessaria nell'interesse pubblico. I poteri di risoluzione delle crisi di cui dispone l'autorità di risoluzione delle crisi comprendono il potere di (i) svalutare l'importo dovuto, anche a zero, o convertire gli Strumenti Finanziari in altri titoli, comprese le azioni ordinarie dell'ente interessato (o di una controllata) - il cosiddetto strumento del "*bail-in*"; (ii) trasferire tutta o parte dell'attività dell'ente interessato a una "banca ponte"; (iii) trasferire attività deteriorate o problematiche a un veicolo di gestione patrimoniale; e (iv) vendere l'ente interessato a un acquirente commerciale. Inoltre, l'autorità di risoluzione delle crisi ha la facoltà di modificare gli accordi contrattuali, sospendere i diritti di esecuzione o di recesso che potrebbero altrimenti essere attivati. Il regime di risoluzione delle crisi è concepito per essere attivato prima dell'insolvenza e i detentori degli Strumenti Finanziari potrebbero non essere in grado di anticipare l'esercizio del potere di risoluzione delle crisi da parte dell'autorità di risoluzione delle crisi. Inoltre, i detentori degli Strumenti Finanziari avrebbero diritti molto limitati di contestare l'esercizio dei poteri da parte dell'autorità di risoluzione delle crisi, anche nel caso in cui tali poteri abbiano portato alla svalutazione degli Strumenti Finanziari o alla conversione degli Strumenti Finanziari in capitale.

Legge applicabile: Gli Strumenti Finanziari sono regolati dal diritto inglese.

Stato degli Strumenti Finanziari: Gli Strumenti Finanziari sono obbligazioni non subordinate e non garantite dell'Emittente e si classificheranno allo stesso modo tra di loro e con tutte le altre obbligazioni non subordinate e non garantite dell'Emittente di volta in volta in essere.

L'adozione di qualsiasi azione da parte di un'autorità di risoluzione delle crisi ai sensi della Direttiva sul Risanamento e la Risoluzione delle Crisi Bancarie, in relazione all'Emittente, potrebbe materialmente influenzare il valore dei, o qualsiasi rimborso collegato agli, Strumenti Finanziari, e/o rischiare una conversione in capitale degli Strumenti Finanziari.

Descrizione delle restrizioni alla libera trasferibilità degli Strumenti Finanziari: Gli Strumenti Finanziari non sono stati e non saranno registrati ai sensi dello U.S. Securities Act del 1933 (il "**Securities Act**") e non possono essere offerti o venduti all'interno degli Stati Uniti o a, o per conto o a beneficio di, persone statunitensi, tranne che in alcune operazioni esenti dagli obblighi di registrazione del Securities Act e dalle leggi statali applicabili in materia di strumenti finanziari. Nessuna offerta, vendita o consegna degli Strumenti Finanziari, o distribuzione di qualsiasi materiale d'offerta relativo agli Strumenti Finanziari, può essere effettuata in o da qualsiasi giurisdizione, salvo in circostanze che risultino conformi alle leggi e ai regolamenti applicabili. Fermo restando quanto sopra, gli Strumenti Finanziari saranno liberamente trasferibili.

Dove verranno negoziati gli Strumenti Finanziari?

Sarà presentata dall'Emittente (o verrà presentata per suo conto) una richiesta di quotazione e ammissione alle negoziazioni degli Strumenti Finanziari sul mercato EuroTLX, un sistema multilaterale di negoziazione organizzato e gestito da Borsa Italiana S.p.A. (il "Mercato EuroTLX") con effetto dalla Data di Emissione.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Fattori di rischio associati agli Strumenti Finanziari: Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

Il valore ed il prezzo stimato dei Vostri Strumenti Finanziari (se del caso) in qualsiasi momento dipenderanno da molti fattori e non potranno essere prevedibili.

- A seconda dell'andamento delle Attività Sottostanti, Voi potreste subire la perdita di una parte o della totalità del Vostro investimento.
- Il prezzo di mercato degli Strumenti Finanziari prima della scadenza può essere significativamente inferiore al prezzo di acquisto pagato. Di conseguenza, se vendete i Vostri Strumenti Finanziari prima della data di regolamento prevista, potreste ricevere molto meno dell'importo investito inizialmente.
- I Vostri Strumenti Finanziari possono essere regolati in determinate circostanze straordinarie indicate nelle condizioni degli Strumenti Finanziari prima della scadenza prevista e, in tal caso, l'importo di regolamento anticipato pagato a Voi potrebbe essere inferiore all'importo che avete pagato per gli Strumenti Finanziari. In alcune circostanze, tale importo di rimborso anticipato può essere pari a zero.

Rischi relativi a determinate caratteristiche degli Strumenti Finanziari:

- I termini e le condizioni dei Vostri Strumenti Finanziari prevedono che gli Strumenti Finanziari siano soggetti ad un *cap*, dunque, la Vostra capacità di partecipare in qualsiasi cambiamento nel valore delle Attività Sottostanti per tutta la durata degli Strumenti Finanziari sarà limitata, a prescindere da quanto il prezzo dell'Attività Sottostante sia superiore al livello del *cap* nel corso della vita degli Strumenti Finanziari. Di conseguenza, il rendimento sui Vostri Strumenti Finanziari potrebbe essere significativamente inferiore a quello che sarebbe stato se aveste acquistato le Attività Sottostanti direttamente.
- I termini e le condizioni dei suoi Strumenti Finanziari prevedono che il rendimento sugli Strumenti Finanziari dipende dalla performance "worst-of" del paniere delle Attività Sottostanti, Voi sarete esposti alla performance di ciascuna Attività Sottostante e, in particolare all'Attività Sottostante con andamento peggiore. Ciò significa che, a prescindere dalla performance delle altre Attività Sottostanti, se una Attività Sottostante non rispetta la relativa soglia o barriera per il pagamento degli interessi o il calcolo di qualsiasi importo di regolamento, Voi potreste non ricevere il pagamento degli interessi e/o potreste perdere una parte o la totalità del Vostro investimento iniziale.

Rischi relativi alle Attività Sottostanti:

- *Il valore ed il rendimento dei Vostri Strumenti Finanziari dipendono dall'andamento delle Attività Sottostanti.* Il rendimento dei Vostri Strumenti Finanziari dipende dall'andamento delle Attività Sottostanti. Il prezzo delle Attività Sottostanti può essere soggetto nel tempo a modifiche imprevedibili. Questo grado di cambiamento è noto come "volatilità". La volatilità di un'Attività Sottostante può essere condizionata da eventi nazionali ed internazionali di natura finanziaria, politica, militare o economica, incluse azioni governative, o da azioni da parte dei partecipanti al mercato rilevante. Uno qualunque di questi eventi o azioni può influenzare negativamente il valore ed il rendimento degli Strumenti Finanziari. La volatilità non implica una direzione del prezzo, anche se un'Attività Sottostante che è più volatile è più probabile che aumenti o diminuisca di valore più spesso e/o in misura maggiore rispetto ad una che è meno volatile.
- *L'andamento passato di un'Attività Sottostante non è indicativo dell'andamento futuro.* Non dovete considerare informazioni relative all'andamento passato di un'Attività Sottostante come indicative del *range*, delle tendenze, o di fluttuazioni di un'Attività Sottostante che possano verificarsi in futuro. Attività Sottostanti possono avere un andamento diverso (o uguale) rispetto al passato, e ciò può avere un significativo effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.
- L'andamento dell'Azione dipende da fattori macroeconomici, come i livelli di interesse e prezzo sui mercati dei capitali, sviluppi valutari, fattori politici così come fattori specifici relativi alle società quali utili, posizione di mercato, situazione di rischio, struttura azionaria e politica di distribuzione, così come pure rischi di *business* cui

sono esposti i relativi emittenti. Uno qualsiasi di tali fattori o una loro combinazione possono influenzare negativamente l'andamento delle Attività Sottostanti che, a sua volta, avrebbero un effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.
